

# IRIS P11D Organiser

---

*Easily produce P11Ds for your employees*

If you provide taxable benefits to employees you must provide a P11D form for each employee and submit returns to HMRC.

**IRIS P11D Organiser** has been developed by the UK market leader in benefits and expenses software. It lets you easily produce P11D returns for employees and manages all the complex calculations automatically.

IRIS P11D Organiser integrates with Earnie payroll software to eliminate data duplication. Full hotline support is available and you will be sent legislative updates as part of the annual maintenance.

It is fully approved by HMRC and you can electronically submit your P11D and P46 (Car) data via the Government Gateway.

## Import benefits data

Import data from a Microsoft Excel spreadsheet to save time and minimise errors. An import wizard lets you map fields from your spreadsheet to IRIS P11D Organiser and remembers the information for next time. A validation facility will also check your data to make sure there are no duplicated entries.

## Powerful reporting

A wide selection of employer, employee, fleet and benefits reports are included within IRIS P11D Organiser as standard. Customised reports can also be created using a Reports Wizard and can be printed, emailed, saved in PDF format or exported to a Microsoft Excel spreadsheet.

## Email P11Ds and benefits statements to employees

Send reports to your employees by email to cut costs and help the environment. IRIS P11D Organiser can populate employee email addresses from your email software to make life easier and you can attach customised covering notes and logos to reports.

## Multi-user access

Multi-user access is included as standard with IRIS P11D Organiser for no additional cost. All your payroll and HR team can access the software at once - ideal for when the deadline for submissions is looming!

---

*Easily produce P11Ds for your employees*

*"The software is easy-to-use and the integration with Earnie saves a lot of time as we don't need to continually update two systems. The reports within IRIS P11D Organiser are very useful, particularly the email facility which means they can be sent easily to employees. We produce a large number of P11Ds covering a range of benefits so the fact it is multi-user is invaluable as several members of the team can be working on the system at once."*

**Jenny Lane,**  
Rugby Football Union

## Suitable for all companies

IRIS P11D Organiser is suitable for any companies who provide taxable benefits to employees. It is powerful enough to handle even the largest P11D requirements and over 1,000 users of the software include Amazon, Sony and Cancer Research UK. It is priced on the number of P11Ds to be produced, so is also a cost effective solution for smaller companies.

## Implementation and training

IRIS P11D Organiser is easy to install and a full implementation and training service is available to make sure you are up and running quickly on your new piece of software. We can show you how to get the best from the system so your P11Ds are produced quickly and efficiently.

## Key Features

- Store historic data
- Roll forward to new tax year
- Automatic data backup services
- Powerful reporting utility – export data to spreadsheets
- Email delivery of P11Ds and benefits statements
- Import your benefits data
- Simultaneous multi user access
- Government gateway ready
- HMRC recognised
