

# IRIS OpenResourcing

*Cost-effective, reliable and secure iXBRL compliance to reduce costs and increase profits*

*Outsourcing is a flexible and cost-effective means of successfully completing iXBRL compliance without the costly overheads associated with additional staff*

Outsourcing your iXBRL compliance frees up staff time to concentrate on critical tasks.

IRIS OpenResourcing customers find our iXBRL service invaluable in taking on additional work and reducing the turnaround time of iXBRL compliance. We take your existing accounts - whether they are prepared in Microsoft Word, Excel or Adobe PDF - and apply all of the iXBRL tags.

Our high quality service is reliable, secure and flexible, giving you complete control of the process.

## **Quality assured**

IRIS OpenResourcing is based in Chennai, India in modern and secure offices. Manned by a team of accountants, bookkeepers and technical staff that are highly skilled and trained in UK reporting and accounting standards and supported by your local IRIS account management team.

## **iXBRL compliant accounts in 4 easy steps:**

1. Create an account
2. Log in and upload your files to the secure portal
3. Data is processed and tagged by qualified staff
4. Your iXBRL compliant accounts are returned to you

IRIS OpenResourcing is ISO 27001:2013 and ISO 9001:2008 certified and complies with the UK Data Protection Act. We work to very stringent quality, IT and security processes, to ensure that your confidential data is protected and kept secure both in the UK and Chennai.

*"We knew that outsourcing through IRIS OpenResourcing was a smart opportunity to support our business operations without sacrificing quality."*

Les Shorthouse, Director  
Shorthouse & Martin

# IRIS OpenResourcing

*IRIS OpenResourcing provides the essential iXBRL skills and knowledge at a lower ongoing rate, increasing your profitability*

*Certified quality and being part of the IRIS family gives you the reassurance to take the first step*

## **Guaranteed iXBRL compliance with IRIS OpenResourcing**

IRIS OpenResourcing provides access to a team of iXBRL specialists. This removes any recruitment or retention issues and frees up your time to focus on managing and controlling the daily financial needs of your company. You and your staff can work on the higher value and more challenging projects.

IRIS OpenResourcing can meet your iXBRL demands, without increasing your fixed costs or creating additional risk.

## **Security is assured from start to finish, on every job**

24 hour access via the IRIS OpenResourcing secure web portal lets you check on the status of an individual job at any time, so you always know where you are.

Prior to returning the job to you for approval, it is thoroughly checked and goes through a 2 level review by the team leader and our Quality Assurance team.

Each set of accounts is also tested against the HMRC Validation Gateway - for additional reassurance.

IRIS OpenResourcing gives you complete control over costs because each job is executed to a fixed budget that is approved by you - there are no hidden extras.

## **A cost-effective way to manage your company's iXBRL compliance needs**
