

IRIS Company Formations

An automated system allowing quick and simple incorporation of companies

*Save time and money
on forming companies
online*

Using IRIS Company Formations you can...

- Check company name availability
- Incorporate a private company limited by shares
- Use traditional Companies House forms that are completed automatically or
- Send the information electronically direct to Companies House
- Use the same day incorporations service offered by Companies House (optional)
- Automatically detect email responses from Companies House and update the status of any pending incorporations
- Track the status of incorporations on one simple report
- Attach supporting data documents as PCL formatted files e.g. for use when sending supporting evidence
- Mass produce identical clients for incorporation
- File a standard incorporation which can save you £26 if submitted electronically (cost £14 electronically or £40 by post, paid directly to Companies House)
- File same day incorporations which can save you £70 if submitted electronically (cost £30 electronically or £100 by post, paid directly to Companies House)

"We used the services of a Company Formations agent but now we can form new companies for clients ourselves; the time and cost savings are substantial."

Luke Desmond, Churchill Knight & Associates

Key benefits

- Electronically form companies saving £26 per standard incorporation
- Step by step formation wizard for easy entry of all required details
- Fast client creation - identical clients with different business names created with one click
- Store multiple types of standard wording for easy application to other companies' Memorandum and Articles of Association
- Automatically track the status of impending corporations

Documents produced

- Companies House traditional paper form IN01 Memorandum and Articles of Association
- Default wording provided for use with newly formed private companies limited by shares
- Tailor wording on a client by client basis or practice wide
- Save multiple user defined templates which can be applied to new companies
- Print share certificates and share transfer Documents
- A newly formed client can be maintained via any IRIS practice software module and all the information is already set up i.e. directors and secretaries, registered office and share capital

IRIS Company Formations

The accuracy and suitability of the data provided to Companies House is the responsibility of the person submitting the information. Payments for incorporations are made directly to Companies House. Once registered for electronic filing with Companies House a credit agreement must be set up. Incorporations will be charged on a monthly basis and incorporations will be notified on a monthly statement received directly from Companies House.
