IRIS Payroll for Accountants

A comprehensive bureau solution for accountants offering a client payroll service

Everything you could ask for in the most comprehensive a payroll package including payroll calculations, employment law compliance and P11D production

IRIS Payroll for Accountants makes it easy for practitioners to use the same product to manage multiple payrolls for their clients.

IRIS Payroll for Accountants includes

- IRIS Bureau Payroll software
- IRIS HR Manager software
- IRIS P11D software
- A priority line when calling for support
- Quarterly payment terms

IRIS Bureau Payroll

IRIS Bureau Payroll is designed specifically to meet the unique demands of managing the payrolls of multiple client companies. It's one of a new generation of software solutions from IRIS specifically for the bureau industry. Combining powerful cross-company and client management functionality with a contemporary look and feel, IRIS Bureau Payroll is the software of choice for the modern payroll bureau.

This payroll solution includes:

- *A revolutionary new dashboard to improve client management, increase efficiency and save time*
- *The payroll rollback feature allows practitioners to reverse and correct an individual's payroll, going back as many periods as required, without affecting data already entered for other staff*
- *Flexible report management to create, preview and email reports directly to clients or configure preferred reports for group emailing or printing together every period*
- *Full payroll history stores all payroll data for current and previous tax years, providing easy access to payroll information for any period*
- *'Global changes' to quickly update all employees simultaneously without scrolling through each record*
- *Comprehensive legislative section, providing key documents and guides to answer client queries*

Key benefits

- *Versatile solution covering payroll calculations, HR issues and P11D production*
- *Priority support line*
- *Flexible payment terms*
- *Integrates with IRIS Accountancy Suite and IRIS OpenBooks for even greater efficiencies*

- *Month-end calculations to automatically determine the amount due to HMRC every month according to the tax calendar*

Whether you already provide a payroll service using other software or you're considering offering payroll as an additional service, IRIS Bureau Payroll is the perfect solution for accountancy practices responsible for processing multiple payrolls with different PAYE reference numbers.

IRIS HR Manager

IRIS HR Manager helps you comply with employment law by storing employee information and employment documents in a central database that makes information, reports and analysis quick to retrieve. You could also stand to save time and money on your everyday HR administration, as the professionally pre-prepared forms and templates speed-up the completion of daily HR.

Designed for use by small to medium businesses, IRIS HR Manager enables users to easily create, store and retrieve employee information, supporting compliance with employers' obligations legislation. IRIS HR Manager ensures practices keep up to date with the latest government regulations, with the minimum of fuss.

IRIS Payroll for Accountants

A comprehensive bureau solution for accountants offering a client payroll service

IRIS P11D

IRIS P11D is simple to use and could help avoid penalties for incorrect or late submissions. With a car emissions database and automatic completion of complex calculations, IRIS P11D makes statutory form completion even faster.

IRIS P11D draws employer and employee details from IRIS Payroll and IRIS HR Manager to help in completing annual forms. The practitioner simply enters the type and gross value of employees' benefits in kind and IRIS P11D calculates the taxable benefits and amount of Class 1A NICs due - quickly, efficiently and accurately.

Efficiency through integration

IRIS Payroll for Accountants links the employment records to the equivalent records held in the Personal Tax module of IRIS Accountancy Suite. This link ensures data passes between the two products, automatically eliminating the need to re-key information. This increases productivity and improves accuracy when creating final tax returns for clients.

Practitioners that offer IRIS OpenBooks, our award-winning online bookkeeping solution, will also benefit. The payroll details from IRIS Payroll for Accountants can be imported directly into IRIS OpenBooks by the practitioner. The process is completely transparent to IRIS OpenBooks users who will have visibility of the payroll changes when they access their IRIS OpenBooks account. This is a tremendous time saving benefit for practitioners and ensures IRIS OpenBooks users always have an accurate view of their business.

> *"Providing a payroll service is a responsibility - it's up to us to get the right money in employees' bank accounts, and IRIS Payroll Software helps us to do this reliably and efficiently."*

RTI Ready

RTI (Real Time Information) represents the biggest change in payroll since 1944 when Pay As You Earn (PAYE) was introduced.

All small to medium businesses will be legally required to report payroll information in real time from April 2013. That means every employer needs to submit information about PAYE to HMRC every time a payroll is run and employees are paid e.g. weekly if you run weekly payrolls and on or before the pay date.

With our relentless focus on compliance you can rest assured that with IRIS Payroll for Accountants you'll be ready.
