## Installing IRIS Payroll Business for the first time

To install IRIS Payroll Business, just follow these step by step instructions.

**Important note:** before you begin the installation process, please close all of your applications.

1. Insert the IRIS Payroll Business CD into your CD-ROM drive and wait for the IRIS Payroll Business screen to appear. Please note: If the IRIS Payroll Business screen does not appear you should click on the Windows **'Start'** button, choose **'Run'** and enter **D:\autorun.exe** (where D is the identifier of your CD drive).
2. Choose the **'Install IRIS Payroll Business'** option from the menu.
3. Click **'Next'** on the welcome screen and accept the licence agreement.
4. You will see three installation options on the next screen:
  - Complete
  - Workstation
  - Custom

Choose the **'Complete'** option and click **'Next'**.

5. Now choose where you want to install IRIS Payroll Business.

**Important Note:** please be aware you may wish to install IRIS Payroll Business on a network location if you want to run the software from more than one PC.

6. On the following screen, click **'Next'** to begin your installation.

IRIS Payroll Business will tell you when it has finished installing. Please restart your PC before using the software.

**Important Note:** if you have installed IRIS Payroll Business on a network, please read the section **Additional steps for networked installations of IRIS Payroll Business** [here](#).

**Important Note:** During your first installation the following screens may be displayed. Click **'Install'** to install the required components. This process can take several minutes.

**Important note:** please be aware you may have installed IRIS Payroll Business on a network location.

6. On the following screen, click **'Next'** to begin your installation.

IRIS Payroll Business will tell you when it has finished installing. Please restart your PC before using the software.

**Important note:** if you have installed IRIS Payroll Business on a network, please read on for further instructions.

## Additional steps for networked installations of IRIS Payroll Business

### From Download

These steps are only for networked installations of IRIS Payroll Business; if your copy of IRIS Payroll Business is only installed on one PC you can ignore this section.

**Important note:** you must perform these additional steps on every workstation you want to run IRIS Payroll Business from. This is in addition to running an **'Complete'** installation to the network location; please ensure you have installed on the network first.

1. Open your Downloads folder and select IRIS\_Payroll\_Business.exe (See **Updating an existing copy of IRIS Payroll Business**)
2. Select **'Install'** to start the extraction
3. Click **'Next'** on the welcome screen and accept the licence agreement
4. From the **Setup Type** screen, choose **'Workstation'** then **'Next'**
5. Click **'Browse'** if you need to change the **Destination Folder** then **'Next'**
6. Click **'Next'** to start the installation
7. A message will be displayed when the installation is complete. Click **'Finish'** and restart your PC before using the software
8. Ensure the **'Destination Folder'** shown is the network location and click **'Next'** or **'Browse'** if you need to choose a different location
9. Click **'Next'** to start the installation

A message will be displayed when the installation is complete. Please restart your PC before using the software.

Remember to complete a workstation install on all the PCs you want to run IRIS Payroll Business from.

## From CD

If you already use IRIS Payroll Business and have requested an upgrade CD rather than downloading from the internet, follow these additional instructions for networked installations.

**Important note:** you must perform these additional steps on every workstation you want to run IRIS Payroll Business from. This is in addition to running an **'Install'** to the network location; please ensure you have installed on the network first.

1. Insert the IRIS Payroll CD into your CD-ROM drive on the first workstation and wait for the IRIS Payroll Business screen to appear.
2. Click on the **'Install IRIS Payroll Business'** option.
3. Click **'Next'** on the welcome screen and accept the licence agreement.
4. From the three installation options on the next screen, this time choose **'Workstation'** and click **'Next'**.
5. On the next screen, choose the same location as your original **'Complete'** installation.
6. On the following screen, click **'Next'** to begin your installation.

IRIS Payroll Business will tell you when it has finished installing. Please restart your PC before using the software.

Remember to complete a workstation install on all the PCs you want to run IRIS Payroll Business from.
