Getting Started Tutorial - Configuring your Payroll Calendar

16/02/2015

Getting Started Tutorial – Configuring your Payroll Calendar

The Getting Started Tutorials are designed to guide you through common payroll tasks using step by step instructions.

Remember there is a **Help** button on most screens, which will always give assistance specific to that task.

In these tutorials we assume that the **Ribbon** is fully expanded, (i.e. taking up the whole of your screen) so you should be able to see the buttons and groups in full. If not, you may need to click on the group to see the buttons within it. For example:

Maximised screen

Minimised screen

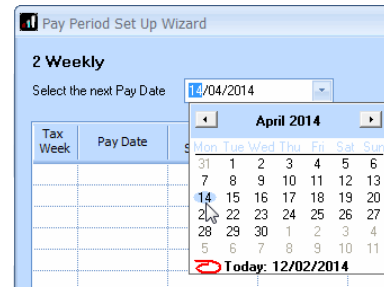

Use the Demonstration Company

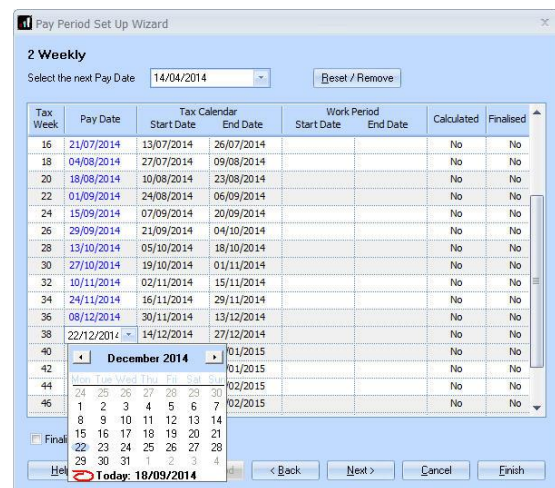

You will be using the **Demonstration Company** for this tutorial.

Click on the drop down arrow next to **Select the next Pay Date** to open a calendar.

Select 14/04/2014 and the **Pay Date** column is automatically filled with dates for the rest of the tax year. If you start mid-year, any payroll dates prior to the one you have entered will be shown as **Calculated** and **Finalised**.

Some pay dates may differ from the usual. You can click on a single date to change only that one. For example, you may always pay early for Christmas, so to change the Christmas **Pay Date**, click on the 22/12/2014 **Pay Date**. This opens the calendar allowing you to select the amended date. Only that date will change in the grid.

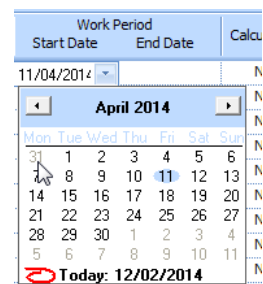

Next you need to enter the dates in the **Work Period** column.

In the payroll, each **Pay Date** is linked to a **Work Period**. The employee is paid on the **Pay Date** for the work done during the **Work Period**. In this example the employees are paid every Monday for the work done in the previous 2 weeks. So any hours worked between Monday 31/03/2014 and Sunday 13/04/2014 are paid on Monday 18/04/2014.

Click in the **Work Period Start Date** column. A calendar opens next to the first **Start Date** field.

Select 31/03/2014 and all the **Work Period** dates are completed automatically. You can change any of the **Work Period** dates but you must ensure that there are no overlapping periods and no gaps.

Click **Finish**.

Further Information

You can find more information about the **Payroll Calendar** by clicking the **Help** button on any of the **Payroll Calendar** screens.
