

How IRIS payroll & auto enrolment software helps AEL Markhams

Customer Profile

AEL Markhams are a Chartered Accountants and Business Advisors firm with over 25 years' experience, based in North West London.

We spoke with Lee Clayburn, Payroll Manager at AEL Markhams to find out how IRIS helps the firm achieve its aims and provide the best possible service to its 150 clients.

Business Objectives

Lee explained how client satisfaction is one of AEL Markhams' biggest objectives.

Solutions Used

Earnie Business

IRIS AE Suite™

IRIS OpenPayslips

We spoke with Lee Clayburn, Payroll Manager at AEL Markhams to learn how the firm uses its IRIS software solutions, Earnie Business, the IRIS AE Suite™, and IRIS OpenPayslips.

Lee began by saying that “here at AEL Markhams we want to be seen as proactive and help our clients; IRIS have been very useful to have on board”. Accountants can download the free [Auto Enrolment Accountancy Kitbag](#) to help accountants sell the benefits of auto enrolment. The kitbag contains a range of content including guides, pre-recorded webinars, and much more.

The firm uses Earnie Business, the IRIS AE Suite™, and IRIS OpenPayslips to provide the high level of service its clients have become accustomed to. Earnie Business is used as the firm's payroll software, and then they use the IRIS AE Suite™ to manage the auto enrolment duties of not only its own employees, but also that of their clients; “we have around 150 clients who we deal with on a monthly basis, and one of the most important factors for me is to try and be as efficient as possible; your reports are there at the press of a button.

“It's a very user friendly system, it's very easy to pick up, so as you're

running your payroll, the auto enrolment module is there also working and it's pretty much instantaneous so as you're running your payroll and producing reports that the client wants, you're also producing reports for auto enrolment, those who have staged, eligible jobholders and so on.”

The IRIS AE Suite™ was created with what we refer to as a 'zero additional effort' approach, so the feedback from AEL Markhams on the software being “pretty much instantaneous as you're running your payroll” is fantastic to hear.

The firm also use IRIS OpenPayslips to electronically distribute payslips, P60s and other communications; Lee explained to us that “IRIS OpenPayslips has also provided security and Data Protection and that's something that our clients have taken to very well.”

You can watch the video of our chat with Lee [here](#), and learn more about the software AEL Markhams use by visiting iris.co.uk/payrollsoftware or using the details below to get in touch.
