Dear Customer

As we are continually striving to improve our products and services, we will continue to produce and offer updates that include new features and amendments.

We strongly recommend that you install this upgrade as you will benefit from the most up to date features and improvements to the software.

Future Releases

If you have any comments to help us improve our software, services or documentation, please get in touch using the **Product wish list** on **IRIS Online for GP Practice Managers** at www.iris.co.uk/gponline

Invoices

We have added the ability to produce invoices from the **Fees Register** as PDF's, enabling you to attach them to NHS.net emails.

Default main and sub codes

The standard main codes and sub codes have been updated to reflect reporting requirements. The new code structure can be used for new installations or if you wish to create new accounts.

Cash Book

On the Cash Book screen, the field **Balance** has been renamed **Difference**. This value is the difference between the **Income** and the **Expenditure** received for the selected period.

You can now set the Cash Book to open to display the newest entries by default rather than the start of the financial year.

VAT Codes

The following VAT codes have been renamed in the software:

Expenditure

- **Fully Taxable** has been renamed **Fully Recoverable**
- **Non Taxable** has been renamed **Non Recoverable**
- **Partially Taxable** has been renamed **Partially Recoverable**

Income

- **Fully taxable discount** has been renamed **Fully recoverable discount**
- **Non-taxable discount** has been renamed **Non-recoverable discount**
- **Partially taxable discount** has been renamed **Partially recoverable discount**
