

Earnie IQ

Best of breed SQL payroll software

Earnie IQ is a best of breed payroll solution created to meet your ever changing business needs. A proven payroll solution which boasts a comprehensive list of features and payroll management tools to ensure you have everything you need to run, maintain and manage your most important asset.

From a report writer offering almost infinite reporting choices to truly extensive configuration options, Earnie IQ is the ideal solution to ensure your payroll is flexible and efficient. Detailed user security allows flexible access for all types of users coupled with a comprehensive audit trail. Using the industry standard Microsoft SQL Server database, Earnie IQ is strong and robust, suitable for large numbers of employees and concurrent users.

With a customer retention rate of 95% Earnie IQ is a dependable payroll solution and has an extremely happy customer base.

Flexibility

Our 20 years experience brings with it the understanding that every company is different so Earnie IQ has been designed to provide you maximum flexibility and choice enabling you to handle all payroll requirements, from very simple to very complex. With a configurable organisational structure and up to 10 levels of analysis available, Earnie IQ can be set up to meet your changing business needs.

User-defined fields can be created to fit your purposes and formula-based payments & deductions are available to ensure the software moulds to your business demands. Integration to other packages is achieved simply through a library of standard tools and if required tailored integration can be written through an XML/API interface.

Reporting

Earnie IQ has a library of over 150 standard reports that allow quick and simple production of routine and management reporting information. In addition, the system contains a Quick Report Writer which allows ad-hoc reports to be created easily within minutes. The powerful reporting function lets you analyse employee costs in detail for example individual employee costs can be split over multiple cost centres enabling you to have complete control of the exact costs of departments and branches on a weekly or monthly basis. All our reports are created using Crystal Report Writer which allows them to be easily tailored for your specific business requirements.

Earnie IQ

Best of breed SQL payroll software

"Retail is an incredibly vibrant marketplace and the ability to amend your payroll quickly is hugely important. Variable data including overtime doesn't pose an administrative nightmare for us because it's so easy to upload. We don't spend wasted hours inputting data"

Simon Rinaldi, Payroll Manager from Rymans

Intuitive and easy-to-use

Earnie IQ can handle the most demanding payroll calculations yet is incredibly intuitive and easy to use. Fast efficient storage and retrieval of employee data means information can be easily viewed and amended while payrolls can be run and re-run as many times as needed for an individual employee, a selection of employees or the entire company.

"Earnie IQ is easy to use, responsive and very good value for money. It beats all other payroll software hands down. La Senza wouldn't consider using anything else."

Jan Foster, Payroll Manager at La Senza

Timesheet IQ

Import all your timesheet data into Earnie IQ with the simple and intuitive Timesheet IQ. Configure templates based around your business making entry of all your variable data quick and simple. Multiple templates can be created to encompass all aspects of your payroll, such as different divisions, which can update Earnie IQ with minimum effort.

Expert Support

The dedicated Earnie payroll support team is available 5 days a week to provide experienced help, advice and support when you need it. Our payroll specialists are backed by our technical IT support team and we have SLAs in place to ensure your calls are dealt with swiftly and accurately.

"I have always found the support team incredible helpful. It makes an enormous difference to get such good support at the other end of the phone, particularly when we can be under enormous pressure to get it right." Ann Campbell, Payroll Manager at Internazionale

Implementation

Our specialist consultants have years of experience of implementing payroll systems so you can trust that they will advise and guide you through your transition to Earnie IQ, making it as smooth as possible.
