Dear Customer,

Welcome to your guide to setting up and using the IRIS AE Suite™ and IRIS OpenSpace web portal.

The IRIS AE Suite™ consists of several elements, including Auto enrolment (within your payroll software), IRIS OpenEnrol and IRIS OpenPayslips/P60s/P45s. For more details on the IRIS AE Suite™ please contact Sales on **0344 815 5656**.

The Guide will describe how to set up and use each function on the web and within your payroll software.

The Guide contains instructions on setting up the cloud portal for the following elements of the IRIS AE Suite™:

1. **IRIS OpenEnrol**
2. **IRIS OpenPayslips, P60s and P45s**

It also includes:

3. **IRIS OpenSpace**

Further help can also be found on our [website](http://www.iris.co.uk/customer)

## What is IRIS OpenEnrol?

IRIS OpenEnrol is an element of the IRIS AE Suite™; a new way to distribute workplace pension communications to employees. Letters that need to be sent to employees, in order to comply with legislation, will be created automatically when you run the payroll. They will then be published to a secure online portal. The letters are emailed directly to each employee, and once they have registered with the portal they will be able to quickly view all of their past automatic enrolment letters in an easy to access, secure area.

## What will IRIS OpenEnrol do for me?

- Employees receive pension communications directly via email
- Letters can be accessed anywhere an internet connection is available
- Quick and easy to setup with no software to install
- Increases Automatic Enrolment administration efficiency
- Reduces carbon footprint demonstrating an environmentally friendly solution
- Reduces communication distribution costs including printing, postage and processing
- Fully secure
- Allows employees immediate 24/7 access to their own pension communication information
- Free IOS, Android and Windows Phone apps available for employees to securely view their own pension communications on tablets or smartphones
- Log into IRIS OpenEnrol to print any communications if an employee does not have an email address
- All published communications are date stamped for audit purposes and a copy stored against the employee record

## How does IRIS OpenEnrol work?

Certain Automatic Enrolment triggers during the payroll run will cause a communication to be created, which you then need to publish to the IRIS OpenEnrol secure website. IRIS OpenEnrol takes that data and creates letters in the form of Adobe PDF files to be sent to your employees.

- If the employee has an IRIS OpenEnrol account an Adobe PDF version of the letter will be emailed to the employee and stored online
- If the employee does not have an account but has an email address they will still receive the pension communication but will also be asked if they wish to set up their online account. The letter content is in the email, meeting the TPR key requirements
- If the employee does not have an email address, log into IRIS OpenEnrol to print the required letter

## Steps to setting up and using IRIS OpenEnrol

The Pension Guide also details how the letters are created and how to publish them

## How to administer your employees' pension communications using IRIS OpenEnrol

1. Visit the IRIS OpenEnrol website at <https://www.irisopenpayslips.co.uk/> and click the **Login** button

Ideally, your employees will have email addresses set up within the payroll software so that when you click the **Publish** button (as described within the **Pension Guide**) the pension communications will be sent automatically via email to those employees. They will also be able to set up their own IRIS OpenEnrol accounts, and access their own communications via the portal.

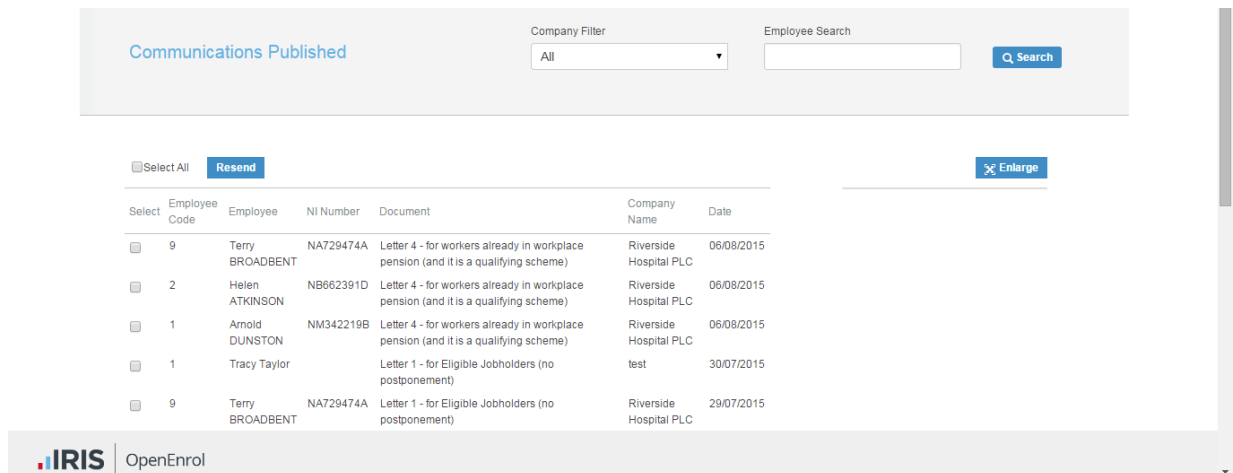

However there may be some employees who are unable to receive their communications this way as they do not have an email address. You are able to print their letters via this **Print** section of the IRIS OpenEnrol portal and send them a physical copy, whilst retaining a record of having sent the communication for audit purposes.

1. Use the **Company Filter** to view results by company, and **Employee Search** to find particular individuals
2. Click the **Select All** box or tick the boxes to select particular letters. Then click the **Print** button

## Published

You may need to resend emails or merely see what communications have been sent. To do this:

1. Click the **Published** button to open the **Published** view

The screenshot shows the 'Communications Published' interface. At the top, there is a 'Company Filter' dropdown set to 'All' and an 'Employee Search' input field with a 'Search' button. Below this is a table of communications. The table has columns for 'Select', 'Employee Code', 'Employee', 'NI Number', 'Document', 'Company Name', and 'Date'. There are five rows of data. To the left of the table is a 'Select All' checkbox and a 'Resend' button. To the right is an 'Enlarge' button. The bottom of the interface shows the IRIS logo and 'OpenEnrol'.

Select	Employee Code	Employee	NI Number	Document	Company Name	Date
