IRIS P11D Release Notes April 2020

Welcome to your software update for April 2020. These notes provide information on all the improvements. If you encounter any difficulties, please visit: www.iris.co.uk/contactsupport

We have updated all relevant forms and Working Sheets for the 2019/2020 tax year. The vehicle database has also been updated.

Car and Car Fuel Benefit Changes

- The appropriate percentage increases by three percentage points for cars registered on or after 1 January 1998 with an approved CO₂ emissions figure, to a maximum rate of 37%
- Diesel cars which meet Euro 6d standard will not incur a surcharge
- The appropriate percentage for all other diesel cars will include a surcharge of +4% for cars rate of 37%
- The appropriate percentage will increase for Cars registered on or after 1 January 1998 without an approved CO₂ emissions figure to 23% for engine size 0 – 1400 and to 34% for engine size 1401- 2000. Over 2000 and rotary engines will remain at 37%
- The appropriate percentage will increase for all cars registered before 1 January 1998 to 23% for engine size 0 – 1400 and to 34% for engine size 1401 – 2000. Over 2000 and rotary engines will remain at 37%
- Car fuel benefit charge increases from £23,400 to £24,100
- As 2019/2020 tax year is a leap year, daily rate calculation will be based on 366 days
- For tax year 2019/2020, a new fuel type **Diesel meets RDE2 regulation** has been added and will use fuel type F in calculations/reports. Prior to 2019/2020, the letter A will be used for this fuel type in calculation/reports

P46 (Car)

From April 2020, the government are encouraging the provision of electric cars and hybrid vehicles. The appropriate percentages for cars with CO2 emissions of up to 50 g/km will consider the range for which the car can be driven using only electric power.

To cater for this and allow you to indicate the mileage range the vehicle can travel under electric power only, from 2019/2020, on the **Add Car/Edit Car** screen, a new **Zero Emissions** field will be displayed. If the CO2 emissions are outside the 1-50 g/km range, this field will be blank and disabled. Entries in the **Zero Emissions** field will be displayed in the **Miles** field on the P46 (Car) report.

Official rate of interest

Official rate of interest for loans and accommodation is 2.5% for 2019/2020.

Additional Software and Services Available

IRIS AE Suite™

The IRIS AE Suite™ works seamlessly with all IRIS payrolls to easily manage auto enrolment. It will assess employees as part of your payroll run, deduct the necessary contributions, produce files in the right format for your pension provider* and generate the necessary employee communications.

IRIS OpenPayslips

Instantly publish electronic payslips to a secure portal which employees can access from their mobile phone, tablet or PC. IRIS OpenPayslips cuts payslip distribution time to zero and is included as standard with the IRIS AE Suite™.

IRIS Auto Enrolment Training Seminars

Choose from a range of IRIS training seminars to ensure you understand both auto enrolment legislation and how to implement it within your IRIS software.
