Stay secure in your Accountancy Practices

How do I fortify my Accountancy Practices IT security

Some of your priorities should be....

- Addressing the lack of secure authentication and protect against cyberattacks with a unified, secure login system.
- Provide the ability to remotely wipe your devices if misplaced or stolen.
- Prioritise and manage patches/updates for operating systems and applications, minimizing vulnerability exploitation risks.
- Prevent unauthorised access to systems and safeguard against insecure methods.
- Guarantee data backup integrity, with encryption in transit and at rest, and protection against ransomware attacks.
